

FAM211

The FAM211 is an all-position axle tyre designed for high stability, traction, and mileage on mixed on/off-road surfaces. Suitable for both steer and trailer positions, it offers a smooth ride on tarmac and reliable performance off-road, with strong resistance to tread wear and damage.

A wide tread and multi-radius cavity ensure even pressure distribution for reduced wear and longer life. Its cool-running compound, increased undertread gauge, and zigzag groove design improve durability, traction, and braking. With excellent retreadability and strong casing protection, the FAM211 is built for lasting performance in tough conditions.

Performance Ratings:

Mileage Potential

Off-Road Traction

Damage Resistance

Features:

The FAM211 delivers good mobility in all on-/off-road conditions. At the same time it provides reliable wet grip and strong wet braking performance.

Mixed Road Series

All Position

All Position

Excellent regroovability and retreadability.
Economy meets ecology.

Designed for performance in severe snow and cold weather conditions.

1 = Fuel Efficiency 2 = Wet grip scale 3 = External rolling noise

Wide tread with multi-radius cavity. **1**

Even ground pressure distribution.
Reduced tread wear and high mileage potential.

Even tread wear over the full tyre life, especially in the shoulders, providing excellent mileage.

Four massive circumferential ribs. **2**

Increased resistance to cuts, chipping and chunking.

Excellent damage resistance, high level of stability.

Cool running cap & base compound. **3**

Increased undertread gauge & tear-resistant base compound.

High mileage and casing durability; protection against stone damage.

Zigzag centreline groove and off set block edge design. **4**

Improved on- and off-road traction and braking.

Mobility in all on- and off-road conditions, good wet grip.
